Cat Blog

- Developed a single page application using Next.js, Node JS, Express, Typescript, Redux.
- Used server side rendering resulting in faster load time and increasing efficiency.
- Implemented login/registration.
- Implemented adding/changing/deleting articles.

About me_____

I am a beginning Frontend developer, BUT extremely perspective. My analytical and critical thinking helps me explore complex things, make decisions and find solutions. Curiosity makes me to improve these skils every day.

I have good communication skills, which allows me to work both in a team and independently. I am disciplined and diligent, focused on getting the final result in compliance with all deadlines.

Hobbies:

- Watching anime (my favorite is Hunter x Hunter);
- Listening to music;
- Play games;
- Listening to podcasts;
